ABOUT US

At DMM, we specialize in problem-solving and operational excellence across the mining services, defense related business, and manufacturing industries. With a deep understanding of these critical sectors, we provide tailored and dynamic solutions to enhance efficiency, drive innovation, and ensure sustainable growth. Our team combines strategic insight with hands-on experience, helping businesses overcome complex challenges and achieve their goals.

Whether it's optimizing production processes, waste management, raw material procurement, or navigating regulatory environments, DMM is committed to delivering impactful results. Our innovative approach and dedication to excellence make us the trusted partner for organizations looking to stay competitive in today's fast-evolving markets.

At DMM, we don't just solve problems—we create opportunities for lasting success.

OUR SERVICES

We provide efficient and sustainable end-to-end solutions for our clients in strategic industries.

Mining Services

Solving complex extraction and operational inefficiencies by offering tailored mining solutions - such as fire suppressants, water treatment, and fleet management - that reduce costs, improve safety, and boost resource output.

Defence Business & Services

Addressing security gaps with procurement solutions, ensuring government bodies stay ahead of evolving threats and operational challenges.

Light Vehicle Repair & Maintenance

Minimizing costly downtime and breakdowns with expert repair and maintenance services, ensuring fleet reliability in demanding operational environments.

Trading

Resolving supply chain disruptions by providing timely, cost-effective sourcing and procurement solutions for critical equipment and materials in industrial sectors.

Construction

Tackling infrastructure delays and quality concerns by delivering robust, industry-specific construction projects that meet tight deadlines and technical requirements.

Consulting

Helping businesses overcome operational bottlenecks, inefficiencies, and compliance issues through expert consulting services that drive process improvement and long-term success.

Sustainability Planning & Implementation

DMM ensures responsible resource management and contributes to a more sustainable future for our clients and the communities they serve.

WHY CHOOSE US

We efficiently solve difficult procurement, management, and sustainability issues for our clients.

Our Network

With our services, your firm can leverage our extensive global network of trusted partners and suppliers to gain seamless access to the best resources and solutions.

Innovative Technology

Our team offers cutting-edge technologies and tools that drive innovation, reduce costs, and improve operational outcomes.

Safety and Sustainability

Prioritizing safety, compliances and sustainability in everything we do, we deliver solutions that protect your people, assets, and the environment.

Efficiency

Achieve optimal performance with our streamlined processes and customized strategies that maximize productivity and minimize waste.

BUSINESS PARTNERS

PT Daya Mitra Multipratama (DMM) provides a range of client-specific services for industry leaders in the mining, manufacturing, and construction industries. We efficiently solve difficult procurement, management, and sustainability issues for our clients.
